

Valentines Day Announcement

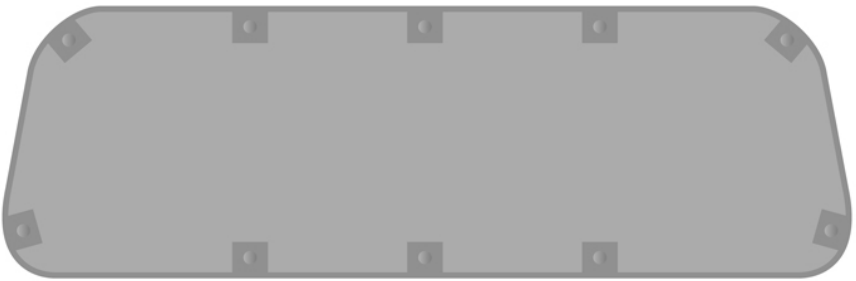

V1 Lock Covers Now Available

Use Coupon Code SHIPV1LOVE for free shipping on V1 Lock Covers. Good through 02/28/23.

Rear Window Shade Update

How would you customize your window shade?

Check out the new [store page](#) to price out the options you want

What To Expect

Undertaking this project and offering it as a custom upgrade has it's challenges. One of those challenges will be to ensure every window shade fits. To do that, each customer will be asked to provide window measurements. For most orders the measurements will be compared to what I already have. Some standard size campers have a larger window for which I still do not have measurements for (reach out to me if that's you). Providing window measurements is easy using [this diagram](#) and sending me a list of the measurements.

The store page will open for orders (backorder) on March 1, 2023

Window shades will be produced in the order I receive the order. The first few orders will likely ship out the same week. If orders back up, build time may take up to 2 to 3 weeks but I will keep customers informed on the wait time.

I may put a cap on the number of orders I'm working on so the wait is minimized.

Let me know if you have any questions about the Rear Window Shade. Thank you for your support. Purchases made in the store help me offer new gear for our campers.

Cheers,

Matt
